

INTEGRATED ACCESSORIES

AUTOMATIC COLOUR CHANGE

Software that gives you a possibility to change colour automatically between programs

An automatic colour change consists of:

- Gun washing (loading and spraying solvent for nozzle cleaning)
- Loading new colour

This accessory allows you to perform a complete and automatic colour change even outside the execution of programs

WASHING AND LOADING CYCLE TIMES THAT CAN BE SET OR MANAGED BY ANY AUTOMATIC MIXER

IT DOES NOT REQUIRE ANY OTHER COMMANDS, AT THE END OF THE COLOUR CHANGE, THE ROBOT RETURNS TO THE HOME POSITION

IT IS SCALABLE ACCORDING TO THE NUMBER OF COLOURS AND VALVES IN THE PAINTINT SYSTEM
