

INTEGRATED ACCESSORIES

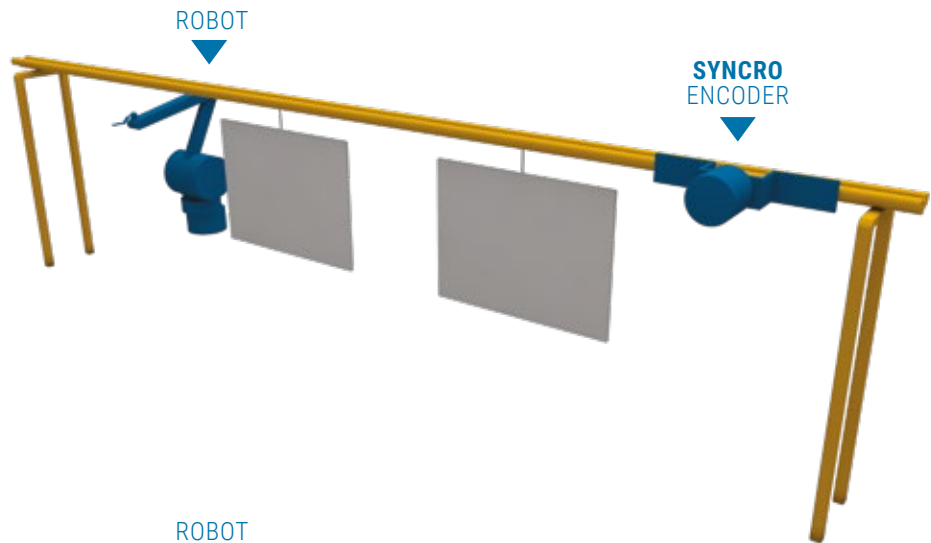

SYNCRO

In a system that works with a continuous conveyor, Syncro will allow your robot to **automatically change the speed** of program execution depending on the speed of the conveyor.

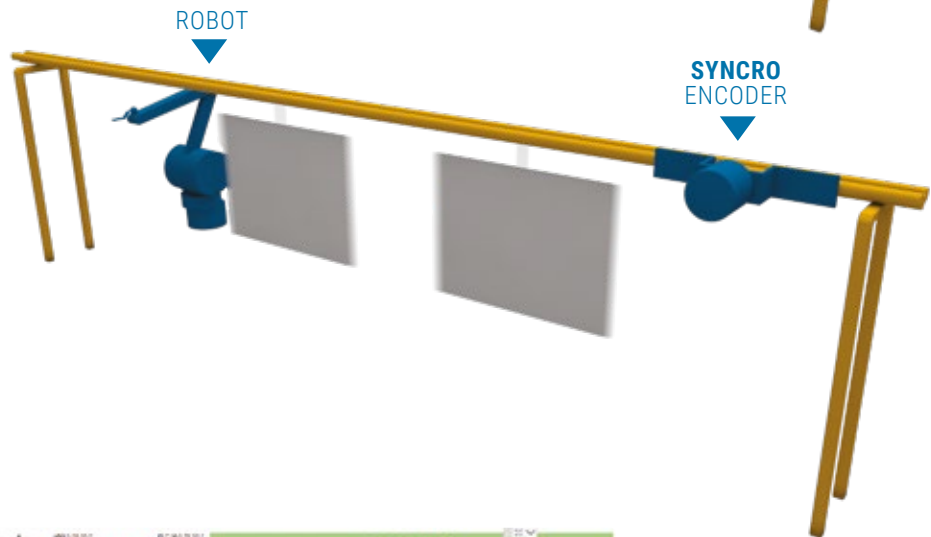

Syncro's supply consists of:

- An encoder installed on the conveyor drive unit
- Electronics on the machine
- Integrated software option

LINE SPEED
1m/Min.
ROBOT SPEED
100%

LINE SPEED
1,3m/Min.
ROBOT SPEED
130%
